## CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Some of the information in this report may contain forward-looking statements. Forward-looking statements give our current expectations, contain projections of results of operations or of financial condition, or forecasts of future events. Words such as “may,” “assume,” “forecast,” “position,” “predict,” “strategy,” “expect,” “intend,” “plan,” “estimate,” “anticipate,” “believe,” “project,” “budget,” “potential,” or “continue,” and similar expressions are used to identify forward-looking statements. They can be affected by assumptions used or by known or unknown risks or uncertainties. Consequently, no forward-looking statements can be guaranteed. When considering these forward-looking statements, you should keep in mind the risk factors and other cautionary statements in this report. Actual results may vary materially. You are cautioned not to place undue reliance on any forward-looking statements. You should also understand that it is not possible to predict or identify all such factors and should not consider the following list to be a complete statement of all potential risks and uncertainties. Factors that could cause our actual results to differ materially from the results contemplated by such forward-looking statements include:

- Antero’s inability to meet its drilling and development plan;
- business strategy;
- natural gas, natural gas liquids (“NGLs”) and oil prices;
- competition and government regulations;
- actions taken by third-party producers, operators, processors and transporters;
- pending legal or environmental matters;
- costs of conducting our gathering and compression operations;
- general economic conditions;
- credit markets;
- operating hazards, natural disasters, weather-related delays, casualty losses and other matters beyond our control;
- uncertainty regarding our future operating results; and
- plans, objectives, expectations and intentions contained in this report that are not historical.

We caution you that these forward-looking statements are subject to all of the risks and uncertainties, most of which are difficult to predict and many of which are beyond our control, incident to the gathering and compression business. These risks include, but are not limited to, commodity price volatility, inflation, environmental risks, drilling and completion and other operating risks, regulatory changes, the uncertainty inherent in projecting future rates of production, cash flow and access to capital, the timing of development expenditures, and the other risks described under “Risk Factors” in this report and in our Annual Report on Form 10-K for the year ended December 31, 2014, filed with the Securities and Exchange Commission on February 25, 2015.

Should one or more of the risks or uncertainties described in this report occur, or should underlying assumptions prove incorrect, our actual results and plans could differ materially from those expressed in any forward-looking statements.

All forward-looking statements, expressed or implied, included in this report are expressly qualified in their entirety by this cautionary statement. This cautionary statement should also be considered in connection with any subsequent written or oral forward-looking statements that we or persons acting on our behalf may issue.

Except as otherwise required by applicable law, we disclaim any duty to update any forward-looking statements, all of which are expressly qualified by the statements in this section, to reflect events or circumstances after the date of this report.

## ANTERO MIDSTREAM PARTNERS LP

### Notes to Condensed Consolidated Financial Statements

#### (1) Business and Organization

Antero Midstream Partners LP (the “Partnership”) is a growth-oriented limited partnership formed by Antero Resources Corporation (“Antero”) to own, operate and develop midstream assets to service Antero’s natural gas and oil and condensate production. On November 10, 2014, the Partnership completed its initial public offering (the “IPO”) of 46,000,000 common units representing limited partnership interests at a price of \$25.00 per common unit. The Partnership was originally formed as Antero Resources Midstream LLC and converted to a limited partnership in connection with the completion of the IPO. At the closing of the IPO, Antero contributed substantially all of its high and low pressure gathering and compression assets to Antero Midstream LLC (“Midstream Operating”), and the equity interests of Midstream Operating were contributed to the Partnership.

Our condensed consolidated financial statements as of December 31, 2014 and March 31, 2015 include the accounts of Antero Midstream Partners LP and Antero Midstream LLC.

Our assets consist of 8-, 12-, 16-, and 20-inch high and low pressure gathering pipelines and compressor stations that collect natural gas and oil and condensate from Antero’s wells in the Marcellus Shale in West Virginia and the Utica Shale in Ohio.

We have agreements with Antero pursuant to which we will provide gathering and compression services for a 20-year period and a services agreement whereby Antero provides operational and management services to us.

#### (2) Summary of Significant Accounting Policies

##### *(a) Basis of Presentation*

These consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) applicable to interim financial information, and should be read in the context of the December 31, 2014 consolidated financial statements and notes thereto for a more complete understanding of the Partnership’s operations, financial position, and accounting policies. The December 31, 2014 consolidated financial statements have been filed with the SEC in the Partnership’s 2014 Form 10-K.

The accompanying unaudited condensed consolidated financial statements of the Partnership have been prepared in accordance with United States generally accepted accounting principles (“U.S. GAAP”) for interim financial information, and, accordingly, do not include all of the information and footnotes required by U.S. GAAP for complete consolidated financial statements. In the opinion of management, these statements include all adjustments (consisting of normal and recurring accruals) considered necessary for a fair presentation of the Partnership’s financial position as of December 31, 2014 and March 31, 2015, the results of its operations for the three months ended March 31, 2014 and 2015 and its cash flows for the three months ended March 31, 2014 and 2015. The Partnership has no items of other comprehensive income or loss; therefore, its net income is identical to its comprehensive income. Operating results for the period ended March 31, 2015 are not necessarily indicative of the results that may be expected for the full year.

The accompanying condensed consolidated financial statements present the assets, liabilities, and results of operations of Antero’s gathering and compression assets as the accounting predecessor (the “Predecessor”) to the Partnership, presented on a carve-out basis of Antero’s historical ownership of the Predecessor. The Predecessor financial statements have been prepared from the separate records maintained by Antero and may not necessarily be indicative of the actual results of operations that might have occurred if the Predecessor had been operated separately during the periods reported. References in these financial statements to “Predecessor,” “we,” “our,” “us” or like terms, when referring to periods prior to November 10, 2014, refer to the Predecessor as defined above. References to “the Partnership,” “we,” “our,” “us” or like terms, when referring to periods since November 10, 2014 or when used in the present tense or prospectively, refer to Antero Midstream Partners LP.

## ANTERO MIDSTREAM PARTNERS LP

### Notes to Condensed Consolidated Financial Statements

Our costs of doing business which are incurred by Antero on our behalf have been reflected in the accompanying condensed consolidated financial statements. These costs include general and administrative expenses allocated to us by Antero in exchange for:

- business services, such as payroll, accounts payable and facilities management;
- corporate services, such as finance and accounting, legal, human resources, investor relations and public and regulatory policy; and
- employee compensation, including equity-based compensation.

Transactions between us and Antero have been identified in the condensed consolidated financial statements as transactions between affiliates (see Note 3).

As of the date these condensed consolidated financial statements were filed with the SEC, the Partnership completed its evaluation of potential subsequent events for disclosure and no items requiring disclosure were identified, except the declaration of a cash distribution to unitholders, as described in Note 6—Partnership Equity and Distributions.

#### ***(b) Revenue Recognition***

We provide gathering and compression services under fee-based contracts based on throughput. Under these arrangements, we receive a fee or fees for gathering oil and gas products and compression services. The revenue we earn from these arrangements is directly related to (1) in the case of natural gas gathering and compression, the volumes of metered natural gas that we gather, compress and deliver to natural gas compression sites or other transmission delivery points or (2) in the case of oil and condensate gathering, the volumes of metered oil and condensate that we gather and deliver to other transmission delivery points. We recognize revenue when all of the following criteria are met: (1) persuasive evidence of an agreement exists, (2) services have been rendered, (3) prices are fixed or determinable and (4) collectability is reasonable assured.

#### ***(c) Use of Estimates***

The preparation of the condensed consolidated financial statements and notes in conformity with U.S. GAAP requires that management formulate estimates and assumptions that affect revenues, expenses, assets, liabilities and the disclosure of contingent assets and liabilities. Items subject to estimates and assumptions include the useful lives of property and equipment, valuation of accrued liabilities, and obligations related to employee benefits, among others. Although management believes these estimates are reasonable, actual results could differ from these estimates.

#### ***(d) Cash and Cash Equivalents***

Historically, the majority of the Predecessor's operations were funded by Antero. Net amounts funded by Antero are reflected as net contributions from or distributions to parent on the accompanying Statements of Cash Flows.

We consider all liquid investments purchased with an initial maturity of three months or less to be cash equivalents. The carrying value of cash and cash equivalents approximates fair value due to the short-term nature of these instruments.

#### ***(e) Property and Equipment***

Property and equipment primarily consists of gathering pipelines and compressor stations and is stated at historical cost less accumulated depreciation. We capitalize construction-related direct labor and material costs. Maintenance and repair costs are expensed as incurred.

## ANTERO MIDSTREAM PARTNERS LP

### Notes to Condensed Consolidated Financial Statements

Depreciation is computed using the straight-line method over the estimated useful lives and salvage values of assets. Gathering pipelines and compressor stations are depreciated over a 20 year useful life. The depreciation of fixed assets recorded under capital lease agreements is included in depreciation expense. Uncertainties that may impact these estimates of useful lives include, among others, changes in laws and regulations relating to environmental matters, including air and water quality, restoration and abandonment requirements, economic conditions, and supply and demand for our services in the areas in which we operate. When assets are placed into service, management makes estimates with respect to useful lives and salvage values that management believes are reasonable. However, subsequent events could cause a change in estimates, thereby impacting future depreciation amounts.

Property and equipment included assets under construction of \$318 million and \$177 million at December 31, 2014 and March 31, 2015, respectively.

#### ***(f) Impairment of Long-Lived Assets***

We evaluate our long-lived assets for impairment when events or changes in circumstances indicate that the related carrying values of the assets may not be recoverable. Generally, the basis for making such assessments is undiscounted future cash flow projections for the unit being assessed. If the carrying values of the assets are deemed not recoverable, the carrying values are reduced to the estimated fair value, which is based on discounted future cash flows or other techniques, as appropriate. No impairments for such assets have been recorded through March 31, 2015.

#### ***(g) Asset Retirement Obligations***

Our gathering pipelines and compressor stations have an indeterminate life, if properly maintained. A liability for these asset retirement obligations will be recorded only if and when a future retirement obligation with a determinable life can be estimated. Because we are not able to make a reasonable estimate of when future dismantlement and removal dates of such assets will occur, we have not recorded asset retirement obligations at December 31, 2014 or March 31, 2015.

#### ***(h) Litigation and Other Contingencies***

An accrual is recorded for a loss contingency when its occurrence is probable and damages can be reasonably estimated based on the anticipated most likely outcome or the minimum amount within a range of possible outcomes. We regularly review contingencies to determine the adequacy of our accruals and related disclosures. The ultimate amount of losses (if any) may differ from these estimates.

We accrue losses associated with environmental obligations when such losses are probable and can be reasonably estimated. Accruals for estimated environmental losses are recognized no later than at the time a remediation feasibility study, or an evaluation of response options, is complete. These accruals are adjusted as additional information becomes available or as circumstances change. Future environmental expenditures are not discounted to their present value. Recoveries of environmental costs from other parties are recorded separately as assets at their undiscounted value when receipt of such recoveries is probable.

No events have occurred that require accruals for loss contingencies or environmental obligations at December 31, 2014 or March 31, 2015.

#### ***(i) Equity-Based Compensation***

Our condensed consolidated financial statements reflect various equity-based compensation awards granted by Antero, as well as compensation expense associated with our own plans. These awards include profits interests awards, restricted stock, stock options, restricted units, and phantom units. For purposes of these condensed consolidated financial statements, we recognized as expense in each period the required allocation from Antero, with the offset included in partners' capital. See Note 3—Transactions with Affiliates for additional information regarding Antero's allocation of expenses to us.

## ANTERO MIDSTREAM PARTNERS LP

### Notes to Condensed Consolidated Financial Statements

In connection with the IPO, our general partner adopted the Antero Midstream Partners LP Long-Term Incentive Plan (“Midstream LTIP”), pursuant to which certain non-employee directors of our general partner and certain officers, employees and consultants of our general partner and its affiliates are eligible to receive awards representing equity interests in the Partnership. An aggregate of 10,000,000 common units may be delivered pursuant to awards under the Midstream LTIP, subject to customary adjustments. On November 12, 2014, we granted approximately 20,000 restricted units and 2,361,440 phantom units under the Midstream LTIP. For accounting purposes, these units are treated as if they are distributed from us to Antero. Antero recognizes compensation expense for the units awarded to its employees and a portion of that expense is allocated to us. See Note 5—Equity-Based Compensation.

#### **(j) Income Taxes**

Our condensed consolidated financial statements do not include a provision for income taxes as we are treated as a partnership for federal and state income tax purposes, with each partner being separately taxed on its share of the taxable income.

#### **(k) Fair Value Measures**

The Financial Accounting Standards Board (the “FASB”) Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures, clarifies the definition of fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This guidance also relates to all nonfinancial assets and liabilities that are not recognized or disclosed on a recurring basis (e.g., the initial recognition of asset retirement obligations and impairments of long-lived assets). The fair value is the price that we estimate would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value hierarchy is used to prioritize inputs to valuation techniques used to estimate fair value. An asset or liability subject to the fair value requirements is categorized within the hierarchy based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. The highest priority (Level 1) is given to unadjusted quoted market prices in active markets for identical assets or liabilities, and the lowest priority (Level 3) is given to unobservable inputs. Level 2 inputs are data, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly.

The carrying values on our balance sheet of our cash and cash equivalents, accounts receivable—affiliate, prepaid expenses, other assets, accounts payable, accounts payable—affiliate, accrued liabilities, accrued capital expenditures, and the revolving credit facility approximate fair values due to their short maturities.

### **(3) Transactions with Affiliates**

#### **(a) Revenues**

All revenues during the three months ended March 31, 2014 and 2015 were earned from Antero.

#### **(b) Accounts receivable—affiliate, and Accounts payable—affiliate**

Accounts receivable—affiliate represents amounts due from Antero, primarily related to gathering and compression services and other costs. Accounts payable—affiliate represents amounts due to Antero for general and administrative and other costs.

#### **(c) Allocation of Costs**

The employees supporting our operations are employees of Antero. Direct operating expense includes allocated costs of \$0.2 million and \$0.7 million during the three months ended March 31, 2014 and 2015, respectively, related to direct labor charges for Antero employees associated with the operation of our gathering lines and compressor stations. General and

## ANTERO MIDSTREAM PARTNERS LP

### Notes to Condensed Consolidated Financial Statements

administrative expense includes allocated costs of \$3.8 million and \$8.6 million during the three months ended March 31, 2014 and 2015, respectively. These costs relate to: (i) various business services, including payroll processing, accounts payable processing and facilities management, (ii) various corporate services, including legal, accounting, treasury, information technology and human resources and (iii) compensation, including equity-based compensation. These expenses are charged or allocated to us based on the nature of the expenses and are allocated based on a combination of our proportionate share of Antero's gross property and equipment, capital expenditures and direct labor costs, as applicable.

Our general and administrative expenses include equity-based compensation costs allocated by Antero. See Note 5—Equity-Based Compensation for more information.

#### **(4) Long-Term Debt**

##### ***(a) Predecessor Credit Facility***

Prior to the IPO on November 10, 2014, long-term debt represented amounts outstanding under a credit facility agreement between Midstream Operating, then a wholly owned subsidiary of Antero and now a wholly owned subsidiary of the Partnership, and the lenders under Antero's credit facility that were incurred for the acquisition and construction of the Predecessor's gathering and compression assets (the "predecessor credit facility"). Interest expense during the three months ended March 31, 2014 includes interest and commitment fees incurred under the predecessor credit facility. On November 10, 2014, in connection with the completion of the IPO, the outstanding balance of the predecessor credit facility was repaid out of the proceeds of the IPO, and this facility was assumed by Antero.

##### ***(b) Revolving Credit Facility***

On November 10, 2014, in connection with the closing of the IPO, the Partnership entered into a revolving credit facility with a syndicate of bank lenders (the "revolving credit facility"). The revolving credit facility provides for lender commitments of \$1.0 billion and a letter of credit sublimit of \$150 million. The revolving credit facility will mature on November 10, 2019.

The revolving credit facility is ratably secured by mortgages on substantially all of our properties, including the properties of our restricted subsidiaries, and guarantees from our restricted subsidiaries. The revolving credit facility contains certain covenants including restrictions on indebtedness and distributions, and requirements with respect to leverage and interest coverage ratios. The Partnership was in compliance with all of the financial covenants under the revolving credit facility as of December 31, 2014 and March 31, 2015.

Principal amounts borrowed are payable on the maturity date with such borrowings bearing interest that is payable quarterly or, in the case of Eurodollar Rate Loans, at the end of the applicable interest period if shorter than three months. Interest is payable at a variable rate based on LIBOR or the base rate, determined by election at the time of borrowing. Commitment fees on the unused portion of the revolving credit facility are due quarterly at rates ranging from 0.25% to 0.375% of the unused facility based on utilization.

At December 31, 2014 and March 31, 2015, we had no borrowings and no letters of credit outstanding under the revolving credit facility.

#### **(5) Equity-Based Compensation**

Our general and administrative expenses include equity-based compensation costs allocated to us by Antero for grants made pursuant to: (i) the Antero Resources Corporation Long-Term Incentive Plan (the "Antero LTIP") (ii) profits interests awards valued in connection with the Antero reorganization pursuant to its initial public offering of common stock, which closed on October 16, 2013, and (iii) the Midstream LTIP. Equity-based compensation expense allocated to us was \$1.3 million and \$4.6 million for the three months ended March 31, 2014 and 2015, respectively. These expenses were allocated to us based on our

**ANTERO MIDSTREAM PARTNERS LP**

## Notes to Condensed Consolidated Financial Statements

proportionate share of Antero's direct labor costs. Antero has unamortized expense totaling approximately \$183 million as of March 31, 2015 related to its various equity-based compensation plans and the Midstream LTIP. A portion of this will be allocated to us as it is amortized over the remaining service period of the related awards.

*Midstream LTIP*

Our general partner manages our operations and activities and its affiliate (Antero) employs the personnel who provide support to our operations. In connection with the IPO, our general partner adopted the Midstream LTIP, pursuant to which non-employee directors of our general partner and certain officers, employees and consultants of our general partner and its affiliates are eligible to receive awards. On November 12, 2014, approximately 20,000 restricted units and 2,361,440 phantom units were granted under the Midstream LTIP to Antero's employees and officers, and to non-employee directors of our general partner. The restricted units and phantom units vest subject to the satisfaction of service requirements, upon the completion of which common units in the Partnership are delivered to the holder of the restricted units or phantom units. Compensation related to each restricted unit and phantom unit award is recognized on a straight-line basis over the requisite service period of the entire award. The grant date fair values of these awards are determined based on the closing price of the Partnership's common units on the date of grant. These units are accounted for as if they are distributed by the Partnership to Antero. Antero recognizes compensation expense for the units awarded and a portion of that expense is allocated to us. Antero allocates equity-based compensation expense to us based our proportionate share of Antero's direct labor costs. Our portion of the equity-based compensation expense is included in general and administrative expenses.

A summary of restricted unit and phantom unit awards activity during the three months ended March 31, 2015 is as follows:

	Number of units	Weighted average grant date fair value	Aggregate intrinsic value (in thousands)
Total awarded and unvested, December 31, 2014	2,381,440	\$ 29.00	\$ 65,490
Granted	—	\$ —	
Vested	—	\$ —	
Forfeited	(21,940)	\$ 29.00	
Total awarded and unvested, March 31, 2015	<u>2,359,500</u>	\$ 29.00	\$ 57,076

Intrinsic values are based on the closing price of the Partnership's common units on the referenced dates. Unamortized expense of \$62 million at March 31, 2015 is expected to be recognized by Antero over a weighted average period of approximately 3.6 years. A proportionate share of the expense will be allocated to us as it is recognized by Antero.

**(6) Partnership Equity and Distributions***Our Minimum Quarterly Distribution*

Our partnership agreement provides for a minimum quarterly distribution of \$0.17 per unit for each whole quarter, or \$0.68 per unit on an annualized basis.

On April 15, 2015, we announced that the board of directors of our general partner declared a cash distribution of \$0.18 per unit for the quarter ended March 31, 2015.

Our partnership agreement generally provides that we distribute cash each quarter during the subordination period in the following manner:

- first, to the holders of common units, until each common unit has received the minimum quarterly distribution of \$0.17 plus any arrearages from prior quarters;

**ANTERO MIDSTREAM PARTNERS LP**

## Notes to Condensed Consolidated Financial Statements

- second, to the holders of subordinated units, until each subordinated unit has received the minimum quarterly distribution of \$0.17; and
- third, to the holders of common units and subordinated units pro rata until each has received a distribution of \$0.1955.

If cash distributions to our unitholders exceed \$0.1955 per common unit and subordinated unit in any quarter, our unitholders and our general partner, as the holder of our incentive distribution rights (“IDRs”), will receive distributions according to the following percentage allocations:

Total Quarterly Distribution Target Amount	Marginal Percentage Interest in Distributions	
	Unitholders	General Partner (as holder of IDRs)
above \$0.1955 up to \$0.2125	85 %	15 %
above \$0.2125 up to \$0.2550	75 %	25 %
above \$0.2550	50 %	50 %

*General Partner Interest*

Our general partner owns a non-economic general partner interest in us, which does not entitle it to receive cash distributions. However, our general partner owns the incentive distribution rights and may in the future own common units or other equity interests in us and will be entitled to receive distributions on any such interests.

*Subordinated Units*

Antero owns all of our subordinated units. The principal difference between our common units and subordinated units is that, for any quarter during the subordination period, holders of the subordinated units are not entitled to receive any distribution from operating surplus until the common units have received the minimum quarterly distribution from operating surplus for such quarter plus any arrearages in the payment of the minimum quarterly distribution from prior quarters. Subordinated units will not accrue arrearages. When the subordination period ends, all of the subordinated units will convert into an equal number of common units. The subordination period will end on the first business day after we have earned and paid at least \$0.68 (the minimum quarterly distribution on an annualized basis) on each outstanding common unit and subordinated unit for each of three consecutive, non-overlapping four-quarter periods ending on or after September 30, 2017 and there are no outstanding arrearages on our common units.

To the extent we do not pay the minimum quarterly distribution on our common units, our common unitholders will not be entitled to receive such arrearage payments in the future except during the subordination period. To the extent we have cash available for distribution from operating surplus in any future quarter during the subordination period in excess of the amount necessary to pay the minimum quarterly distribution to holders of our common units, we will use this excess cash to pay any distribution arrearages on common units related to prior quarters before any cash distribution is made to holders of subordinated units.

**(7) Net Income Per Limited Partner Unit***Net Income Per Limited Partner Unit*

The Partnership’s net income is allocated to the general partner and limited partners, including subordinated unitholders, in accordance with their respective ownership percentages, and when applicable, giving effect to incentive distributions paid to the general partner. Basic and diluted net income per limited partner unit is calculated by dividing limited partners’ interest in net

**ANTERO MIDSTREAM PARTNERS LP**

Notes to Condensed Consolidated Financial Statements

income, less general partner incentive distributions, by the weighted average number of outstanding limited partner units during the period.

We compute earnings per unit using the two-class method for master limited partnerships. Under the two-class method, earnings per unit is calculated as if all of the earnings for the period were distributed under the terms of the partnership agreement, regardless of whether the general partner has discretion over the amount of distributions to be made in any particular period, whether those earnings would actually be distributed during a particular period from an economic or practical perspective, or whether the general partner has other legal or contractual limitations on its ability to pay distributions that would prevent it from distributing all of the earnings for a particular period.

We calculate net income available to limited partners based on the distributions pertaining to the current period's net income. After adjusting for the appropriate period's distributions, the remaining undistributed earnings or excess distributions over earnings, if any, are allocated to the general partner and limited partners in accordance with the contractual terms of the partnership agreement under the two-class method.

Basic earnings per unit is computed by dividing net earnings attributable to unitholders by the weighted average number of units outstanding during each period. Diluted net income per limited partner unit reflects the potential dilution that could occur if securities or agreements to issue common units, such as awards under the long-term incentive plan, were exercised, settled or converted into common units. When it is determined that potential common units resulting from an award should be included in the diluted net income per limited partner unit calculation, the impact is reflected by applying the treasury stock method. Earnings per common unit assuming dilution for the three months ended March 31, 2015 was calculated based on the diluted weighted average number of units outstanding of 151,882,627, including 713 dilutive units attributable to non-vested restricted unit awards. For the three months ended March 31, 2015, 2,350,470 non-vested phantom unit awards were anti-dilutive and therefore excluded from the calculation of diluted earnings per unit.

The following table illustrates the Partnership's calculation of net income per common and subordinated unit for the periods indicated:

(in thousands)	Three months ended March 31, 2015			
	General partner	Limited partners' common units	Limited partner's subordinated units	Total
<b>Earnings per unit:</b>				
<b>Earnings:</b>				
Distribution declared (1)	\$ —	\$ 13,669	\$ 13,669	\$ 27,338
Distributions in excess of earnings	—	(5,845)	(5,845)	(11,690)
<b>Total earnings</b>	<b>\$ —</b>	<b>\$ 7,824</b>	<b>\$ 7,824</b>	<b>\$ 15,648</b>
<b>Weighted average units outstanding:</b>				
Basic:	—	75,941	75,941	151,882
Diluted:	—	75,942	75,941	151,883
<b>Net income per limited partner unit:</b>				
Basic:	\$ —	\$ 0.10	\$ 0.10	
Diluted:	\$ —	\$ 0.10	\$ 0.10	

(1) On April 15, 2015, we announced that the board of directors of our general partner had declared a quarterly cash distribution of \$0.18 per unit,

**ANTERO MIDSTREAM PARTNERS LP**

Notes to Condensed Consolidated Financial Statements

totaling approximately \$27.3 million. The distribution is payable on May 27, 2015 to unitholders of record on May 13, 2015.

**(8) Contingencies**

*Environmental Obligations*

We are subject to federal, state and local regulations regarding air and water quality, hazardous and solid waste disposal and other environmental matters. We believe there are currently no such matters that will have a material adverse effect on our results of operations, cash flows or financial position.

## **Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

*The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and related notes included elsewhere in this report. The information provided below supplements, but does not form part of, our condensed consolidated financial statements. This discussion contains forward-looking statements that are based on the views and beliefs of our management, as well as assumptions and estimates made by our management. Actual results could differ materially from such forward-looking statements as a result of various risk factors, including those that may not be in the control of management. For further information on items that could impact our future operating performance or financial condition, please read see “Item 1A. Risk Factors.” and the section entitled “Cautionary Statement Regarding Forward-Looking Statements.” We do not undertake any obligation to publicly update any forward-looking statements except as otherwise required by applicable law. For more information please refer to the Annual Report on Form 10-K for the year ended December 31, 2014, filed with the SEC on February 25, 2015.*

*References in this report to “Predecessor,” “we,” “our,” “us” or like terms, when referring to periods prior to November 10, 2014, refer to Antero’s gathering and compression assets, our predecessor for accounting purposes. References to “the Partnership,” “we,” “our,” “us” or like terms, when referring to periods since November 10, 2014 or when used in the present tense or prospectively, refer to Antero Midstream Partners LP.*

### **Overview**

We are a growth-oriented limited partnership formed by Antero to own, operate and develop midstream energy assets to service Antero’s rapidly increasing production. Our assets consist of gathering pipelines and compressor stations, through which we provide midstream services to Antero under a long-term, fixed-fee contract. Our assets are located in the rapidly developing liquids-rich southwestern core of the Marcellus Shale in northwest West Virginia and the liquids-rich core of the Utica Shale in southern Ohio, two of the premier North American shale plays. We believe that our strategically located assets and our relationship with Antero position us to become a leading midstream energy company serving the Marcellus and Utica Shales.

### **Address, Internet Website and Availability of Public Filings**

Our principal executive offices are at 1615 Wynkoop Street, Denver, Colorado 80202. Our telephone number is (303) 357-7310. Our website is located at [www.anteromidstream.com](http://www.anteromidstream.com).

We make available our Annual Reports on Form 10-K, our Quarterly Reports on Form 10-Q, and our Current Reports on Form 8-K. These documents are located [www.anteromidstream.com](http://www.anteromidstream.com) under the “Investors Relations” link.

Information on our website is not incorporated into this Quarterly Report on Form 10-Q or our other filings with the SEC and is not a part of them.

### **2015 Developments and Highlights**

#### ***Energy Industry Environment***

We have a gathering and compression agreement with Antero which provides for a fixed fee structure, and we intend to continue to pursue additional fixed fee opportunities with Antero and third parties in order to avoid direct commodity price exposure. However, to the extent that our future contractual arrangements with Antero or third parties do not provide for fixed fee structures, we may become subject to commodity price risk. We are subject to commodity price risks to the extent that they impact Antero’s development plan and therefore our gathering volumes. In late 2014, global energy commodity prices declined precipitously as a result of several factors including increased worldwide supplies, a stronger U.S. dollar, relatively mild weather in large portions of the U.S. during winter months, and strong competition among oil producing countries for market share. Commodity prices have continued to remain low in recent months; prices for West Texas Intermediate have hovered near \$50 per Bbl, and Henry Hub natural gas prices have dropped below \$3.00 per MMBtu. In response to these market conditions and concerns about access to capital markets, many U.S. exploration and development companies significantly reduced their capital spending plans for 2015. Antero’s capital budget for 2015 is \$1.8 billion, a 49% reduction from 2014 capital expenditures. Antero plans to operate an average of 14 drilling rigs in 2015 as

compared to an average of 21 rigs in 2014, and plans to complete 130 horizontal Marcellus and Utica wells in 2015 as compared to 177 in 2014.

### ***Operating and Financial Results***

For the three months ended March 31, 2015, we generated cash flow from operations of \$39.7 million, net income of \$15.6 million, and Adjusted EBITDA of \$35.7 million. This compares to cash flow from operations of \$6.6 million, net income of \$0.7 million, and Adjusted EBITDA of \$8.4 million for the three months ended March 31, 2014. See “—Non-GAAP Financial Measure” for a definition of Adjusted EBITDA (a non-GAAP measure) and a reconciliation of Adjusted EBITDA to net income.

Our low pressure, high pressure, compression and condensate daily volumes totaled 935 MMcf/d, 1,134 MMcf/d, 358 MMcf/d, and 2 MBbl/d respectively, for the three months ended March 31, 2015. This compares to low pressure, high pressure and compression daily volumes totaling 331 MMcf/d, 126 MMcf/d, and 36 MMcf/d, respectively, for the three months ended March 31, 2014.

### ***Distribution for the first Quarter for 2015***

On April 15, 2015, we announced that the board of directors of our general partner declared a cash distribution of \$0.18 per unit for the quarter ended March 31, 2015, a 6% increase compared to our minimum quarterly distribution of \$0.17 per unit (\$0.68 per unit annualized). The distribution will be payable on May 27, 2015 to unitholders of record as of May 13, 2015.

### ***2015 Capital Budget***

During the three months ended March 31, 2015, our total capital expenditures were approximately \$126 million. During 2015, we plan to continue to expand our existing Marcellus and Utica Shale gathering and compression systems to accommodate Antero’s development plans. Our capital budget for 2015 is \$425 to \$450 million, which includes \$415 to \$435 million and \$10 to \$15 million in expansion and maintenance capital, respectively. This capital budget includes \$250 to \$260 million of gathering infrastructure, which will result in 44 miles and 20 miles of additional low pressure and high pressure gathering pipelines, respectively, in both the Marcellus and Utica Shale plays combined. Additionally, the budget includes the construction or expansion of five compressor stations, which will add 545 MMcf/d of incremental compression capacity in 2015. At year-end 2015, we expect to have 180 miles of low pressure gathering lines, 117 miles of high pressure gathering lines, and 920 MMcf/d of compression capacity in service.

### ***Credit Facility***

Current lender commitments under our revolving credit facility are \$1.0 billion, with a letter of credit sublimit of \$150 million. At March 31, 2015, we had no borrowings or letters of credit outstanding under the revolving credit facility. Our revolving credit facility matures in November 2019. See “—Debt Agreements and Contractual Obligations—Revolving Credit Facility” for a description of our revolving credit facility.

### ***Items Affecting Comparability of Our Financial Results***

The historical financial results discussed below may not be comparable to our future financial results primarily as a result of the significant increase in the scope of our operations over the last several years. Our gathering and compression systems are relatively new, having been substantially built within the last three years. Accordingly, our revenues and expenses over that time reflect the significant ramp up in our operations. Similarly, Antero has experienced significant growth in its production and drilling and completion schedule over that same period. Accordingly, it may be difficult to accurately project future trends in our operations based on our historical financial data.

**Results of Operations**

**Three Months Ended March 31, 2014 Compared to Three Months Ended March 31, 2015**

The following table sets forth selected operating data for the three months ended March 31, 2014 compared to the three months ended March 31, 2015:

(in thousands, except average realized fees)	Three months ended		Amount of Increase	Percentage Change
	March 31, 2014	2015		
<b>Revenue:</b>				
Gathering and compression—affiliate	\$11,773	\$ 52,243	\$ 40,470	344 %
<b>Operating expenses:</b>				
Direct operating	941	11,689	10,748	1,142 %
General and administrative (before equity-based compensation)	2,463	4,878	2,415	98 %
Equity-based compensation	1,313	4,623	3,310	252 %

\* Not meaningful or applicable.

(1) For a discussion of the non-GAAP financial measure Adjusted EBITDA, including a reconciliation of Adjusted EBITDA to its most directly comparable financial measure calculated and presented in accordance with GAAP, please see “Non-GAAP Financial Measure” below.

*Gathering and compression revenue—affiliate.* Revenues from gathering of natural gas and condensate and compression of natural gas increased from \$11.8 million for the three months ended March 31, 2014 to \$52.2 million for the three months ended March 31, 2015, an increase of \$40.4 million. Specifically:

- low pressure gathering revenue increased \$17.1 million period over period due to an increase in throughput volumes of 54 Bcf, or 604 MMcf/d, primarily due to the connection of new wells to the system subsequent to March 31, 2014, and an increase in the average realized fees of \$0.01/Mcf resulting from a consumer price index-based rate adjustment;
- high pressure gathering revenue increased \$17.0 million due to an increase in throughput volumes of 91 Bcf, or 1 Bcf/d, primarily due to the addition of thirteen high pressure lines added after March 31, 2014, and an increase in the average realized fees of \$0.01/Mcf resulting from a consumer price index-based rate adjustment;

- compressor revenue increased \$5.4 million due to an increase in throughput volumes of 29 Bcf, or 322 MMcf/d, primarily due to the addition of five new compressor stations that were placed in service after March 31, 2014, and an increase in the average realized fees of \$0.01/Mcf resulting from a consumer price index-based rate adjustment; and
- condensate gathering revenue of \$0.9 million due to throughput volumes of 217 MBbl, or 2 MBbl/d, due to the addition of condensate gathering lines that were placed in service after March 31, 2014.

*Direct operating expenses.* Total direct operating expenses increased from \$0.9 million for the three months ended March 31, 2014 to \$11.7 million for the three months ended March 31, 2015, an increase of \$10.8 million. The increase was primarily due to an increase in the number of gathering pipelines and compressor stations, as well as an increase in ad valorem tax expense related to an increase in our gathering and compression assets in West Virginia.

*General and administrative expenses.* General and administrative expenses (before equity-based compensation) increased from \$2.5 million for the three months ended March 31, 2014 to \$4.9 million for the three months ended March 31, 2015, an increase of \$2.4 million. The increase was primarily a result of increased staffing levels and related salary and benefits expenses and increased legal and other general corporate expenses to support our growth, as well as additional expenditures attributable to our operation as a publicly traded partnership.

Equity-based compensation expense increased from \$1.3 million for the three months ended March 31, 2014 to \$4.6 million for the three months ended March 31, 2015, an increase of \$3.3 million. The increase was primarily a result of equity-based compensation expense allocated to us by Antero related to (i) awards made under the Antero Resources Corporation Long-Term Incentive Plan after March 31, 2014 and (ii) awards made to Antero employees and officers, and to non-employee directors of our general partner under the Antero Midstream Partners LP Long-Term Incentive Plan after March 31, 2014.

*Depreciation expense.* Total depreciation expense increased from \$6.1 million for the three months ended March 31, 2014 to \$14.6 million for the three months ended March 31, 2015, an increase of \$8.5 million. The increase was primarily due to gathering and compression assets placed in service after March 31, 2014.

*Interest expense.* Interest expense increased from \$0.2 million for the three months ended March 31, 2014 to \$0.8 million for the three months ended March 31, 2015, an increase of \$0.6 million. The increase is primarily due to commitment fees and amortization of deferred financing fees incurred in relation to our revolving credit facility.

*Adjusted EBITDA.* Adjusted EBITDA increased from \$8.4 million for the three months ended March 31, 2014 to \$35.7 million for the three months ended March 31, 2015, an increase of \$27.3 million. The increase was primarily due to an increase in gathering and compression throughput volumes during the three months ended March 31, 2015, net of the related increases in operating and general and administrative expenses. For a discussion of the non-GAAP financial measure Adjusted EBITDA, including a reconciliation of Adjusted EBITDA to its most directly comparable financial measures calculated and presented in accordance with GAAP, please see “—Non-GAAP Financial Measure” below.

## **Capital Resources and Liquidity**

### ***Sources and Uses of Cash***

Our primary use of cash has been for the development and construction of our gathering and compression infrastructure. Historically, our sources of liquidity included cash generated from operations and funding from Antero. Sales and purchases related to our Predecessor third-party transactions were received or paid in cash by Antero.

Capital and liquidity is provided by operating cash flow, cash on our balance sheet, and borrowings under our revolving credit facility, discussed below. We expect cash flow from operations to continue to contribute to our liquidity in the future. Sources of liquidity include borrowing capacity under our \$1.0 billion revolving credit facility and potential issuances of debt and equity securities. We expect the combination of these capital resources will be adequate to meet our working capital requirements, capital expenditure program and expected quarterly cash distributions for at least the next 12 months.

The board of directors of our general partner has adopted a cash distribution policy pursuant to which we intend to distribute at least the minimum quarterly distribution of \$0.17 per unit (\$0.68 per unit on an annualized basis) on all of our units to the extent we

have sufficient cash after the establishment of cash reserves and the payment of our expenses, including payments to our general partner and its affiliates. On April 15, 2015, we announced that the board of directors of our general partner declared a cash distribution of \$0.18 per unit for the quarter ended March 31, 2015. The distribution is payable on May 27, 2015 to unit holders of record on May 13, 2015.

We expect our future cash requirements relating to working capital, maintenance capital expenditures and quarterly cash distributions to our partners will be funded from cash flows internally generated from our operations. Our expansion capital expenditures will be funded by borrowings under our revolving credit facility or from potential capital market transactions.

The following table and discussion presents a summary of our combined net cash provided by or used in operating activities, investing activities and financing activities for the periods indicated.

(in thousands)	Three months ended March 31,		Amount of	Percentage
	2014	2015	Increase (Decrease)	Change
Operating activities	\$ 6,605	\$ 39,735	\$ 33,130	502 %
Investing activities	(107,125)	(93,252)	(13,873)	(13)%
Financing activities	100,520	(14,336)	(114,856)	(114)%
Net decrease in cash and cash equivalents	\$ —	\$ (67,853)		

#### ***Cash Flow Provided by Operating Activities***

Net cash provided by operating activities was \$39.7 million for the three months ended March 31, 2015 and net cash provided by operating activities was \$6.6 million for the three months ended March 31, 2014. The increase in cash flow from operations for the three months ended March 31, 2015 compared to the three months ended March 31, 2014 was primarily the result of increased throughput volumes and revenues, which includes the addition of new gathering and compression systems placed in service after March 31, 2014.

#### ***Cash Flow Used in Investing Activities***

Our Predecessor's historical capital expenditures were funded by Antero.

During the three months ended March 31, 2015, we used cash flows in investing activities totaling \$93.3 million for expenditures and deposits for gathering systems and compressor stations. During the three months ended March 31, 2014, we used cash flows in investing activities totaling \$107.1 million for expenditures and deposits for gathering systems and compressor stations.

The board of directors of our general partner has approved a capital budget ranging from \$425 million to \$450 million for 2015 to expand our existing gathering and compression systems to accommodate Antero Resources' development plans. Our capital budget may be adjusted as business conditions warrant. If natural gas, NGLs, and oil prices decline to levels below acceptable levels or costs increase to levels above acceptable levels, Antero could choose to defer a significant portion of its budgeted capital expenditures until later periods. As a result, we may also defer a significant portion of our budgeted capital expenditures to achieve the desired balance between sources and uses of liquidity and prioritize capital projects that we believe have the highest expected returns and potential to generate near-term cash flow. We routinely monitor and adjust our capital expenditures in response to changes in Antero's development plans, changes in commodity prices, availability of financing, acquisition costs, industry conditions, the timing of regulatory approvals, success or lack of success in Antero's drilling activities, contractual obligations, internally generated cash flow and other factors both within and outside our control.

#### ***Cash Flow Provided by (Used in) Financing Activities***

Net cash used in financing activities for the three months ended March 31, 2015 of \$14.3 million is the result of \$14.3 million in cash distributions to our unitholders.

Net cash provided by financing activities for the three months ended March 31, 2014 of \$100.5 million was the result of \$49.6 million in parent contributions from Antero and \$51.5 million in borrowings under the predecessor credit facility, offset by \$0.2 million for payments on capital leases and \$0.4 million for payments of IPO-related costs.

### ***Debt Agreements and Contractual Obligations***

#### *Revolving Credit Facility*

On November 10, 2014, the Partnership entered into a revolving credit facility with a syndicate of bank lenders. The revolving credit facility provides for lender commitments of \$1.0 billion and a letter of credit sublimit of \$150 million. At March 31, 2015, we had no borrowings and no letters of credit outstanding under the revolving credit facility. The revolving credit facility will mature on November 10, 2019.

The Partnership has a choice of borrowing in Eurodollars or at the base rate. Eurodollar loans bear interest at a rate per annum equal to the LIBOR Rate administered by the ICE Benchmark Administration for one, two, three, six or twelve months plus an applicable margin ranging from 150 to 225 basis points, depending on the leverage ratio then in effect. Base rate loans bear interest at a rate per annum equal to the greatest of (i) the agent bank's reference rate, (ii) the federal funds effective rate plus 50 basis points and (iii) the rate for one month Eurodollar loans plus 100 basis points, plus an applicable margin ranging from 50 to 125 basis points, depending on the leverage ratio then in effect.

The revolving credit facility is secured by mortgages on substantially all of our properties, including the properties of our restricted subsidiaries. The revolving credit facility contains restrictive covenants that may limit our ability to, among other things:

- incur additional indebtedness;
- sell assets;
- make loans to others;
- make investments;
- enter into mergers;
- make certain restricted payments;
- incur liens; and
- engage in certain other transactions without the prior consent of the lenders.

Borrowings under the revolving credit facility also require the Partnership to maintain the following financial ratios:

- an interest coverage ratio, which is the ratio of the Partnership's consolidated EBITDA to its consolidated current interest charges of at least 2.5 to 1.0 at the end of each fiscal quarter; provided that upon obtaining an investment grade rating, the borrower may elect not to be subject to such ratio;
- a consolidated total leverage ratio, which is the ratio of consolidated debt to consolidated EBITDA, of not more than 5.0 to 1.0; provided that after electing to issue unsecured high yield notes, the consolidated total leverage ratio will not be more than 5.25 to 1.0, or, following the election of the borrower for two fiscal quarters after a material acquisition, 5.50 to 1.0; and
- if the Partnership elects to issue unsecured high yield notes, a consolidated senior secured leverage ratio, which is the ratio of consolidated senior secured debt to consolidated EBITDA, of not more than 3.75 to 1.0.

### *Contractual Obligations*

There have been no material changes to contractual obligations during the three months ended March 31, 2015. At March 31, 2015, we had no borrowings and no letters of credit outstanding under the revolving credit facility. Under the terms of our revolving credit facility, we are required to pay a commitment fee at rates ranging from 0.250% to 0.375% on any unused portion of the credit facility.

### **Non-GAAP Financial Measure**

We use Adjusted EBITDA and Distributable Cash Flow as performance measures to assess the ability of our assets to generate cash sufficient to pay interest costs, support indebtedness and make cash distributions. Adjusted EBITDA is a financial measure reported to our lenders and used as a gauge for compliance with some of the financial covenants included in our revolving credit facility. We define Adjusted EBITDA as net income (loss) before equity-based compensation expense, interest expense, interest income, income taxes and depreciation and amortization expense. We define Distributable Cash Flow as Adjusted EBITDA less cash interest paid and ongoing maintenance capital expenditures paid. Distributable cash flow should not be viewed as indicative of the actual amount of cash that the Partnership has available for distributions from operating surplus or that the Partnership plans to distribute.

We use Adjusted EBITDA and Distributable Cash Flow to assess:

- the financial performance of our assets, without regard to financing methods in the case of adjusted EBITDA, capital structure or historical cost basis;
- the ability of our assets to generate cash sufficient to support our indebtedness and make cash distributions;
- our operating performance and return on capital as compared to other publicly traded partnerships in the midstream energy sector, without regard to financing or capital structure; and
- the viability of acquisitions and other capital expenditure projects.

Adjusted EBITDA and Distributable Cash Flow are non-GAAP financial measures. The GAAP measures most directly comparable to Adjusted EBITDA and Distributable Cash Flow are net income and net cash provided by (used in) operating activities. The non-GAAP financial measures of Adjusted EBITDA and Distributable Cash Flow should not be considered as an alternative to the GAAP measure of net income. Adjusted EBITDA and Distributable Cash Flow are not presentations made in accordance with GAAP and have important limitations as an analytical tool because they includes some, but not all, items that affect net income. You should not consider Adjusted EBITDA and Distributable Cash Flow in isolation or as a substitute for analyses of results as reported under GAAP. Our definition of Adjusted EBITDA and Distributable Cash Flow may not be comparable to similarly titled measures of other partnerships.

[Table of Contents](#)

The following table represents a reconciliation of our Adjusted EBITDA and Distributable Cash Flow to the most directly comparable GAAP financial measures for the periods presented:

<b>(in thousands)</b>	<b>Three months ended</b>	
	<b>March 31,</b>	
	<b>2014</b>	<b>2015</b>
<b>Reconciliation of Net Income to Adjusted EBITDA and Distributable Cash Flow:</b>		
Net income	\$ 774	\$ 15,648
Add:		
Interest expense	174	823
Depreciation expense	6,108	14,582
Equity-based compensation expense	1,313	4,623
Adjusted EBITDA	<u>\$ 8,369</u>	<u>\$ 35,676</u>
Less:		
Cash interest paid		(579)
Maintenance capital expenditures (1)		<u>(2,408)</u>
Distributable cash flow		<u>\$ 32,689</u>
<b>Reconciliation of Adjusted EBITDA to Cash Provided by Operating Activities:</b>		
Adjusted EBITDA	\$ 8,369	\$ 35,676
Less:		
Interest expense	(174)	(823)
Changes in operating assets and liabilities	(1,590)	4,638
Plus:		
Amortization of deferred financing costs	—	244
Net cash provided by operating activities	<u>\$ 6,605</u>	<u>\$ 39,735</u>

- (1) Maintenance capital expenditures represent that portion of our estimated capital expenditures associated with the connection of new wells to our gathering and compression systems that we believe will be necessary to offset the natural production declines Antero will experience on all of its wells over time.

### Critical Accounting Policies and Estimates

The following discussion relates to the critical accounting policies and estimates for both the Partnership and our Predecessor. The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of our condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Certain accounting policies involve judgments and uncertainties to such an extent that there is reasonable likelihood that materially different amounts could have been reported under different conditions, or if different assumptions had been used. We evaluate our estimates and assumptions on a regular basis. We base our estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates and assumptions used in preparation of our financial statements. We provide expanded discussion of our more significant accounting policies, estimates and judgments in our Annual Report on Form 10-K for the year ended December 31, 2014 (the "2014 Form 10-K"). We believe these accounting policies reflect our more significant estimates and assumptions used in preparation of our financial statements. Also, see note 2 of the notes to our audited consolidated financial statements, included in our 2014 Form 10-K, for a discussion of additional accounting policies and estimates made by management.

## **New Accounting Pronouncements**

On May 28, 2014, the FASB issued Accounting Standards Update (“ASU”) No. 2014-09, *Revenue from Contracts with Customers*, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Partnership on January 1, 2017. Early application is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. We are evaluating the effect that ASU 2014-09 will have on our financial statements and related disclosures. We have not yet selected a transition method nor have we determined the effect of the standard on our ongoing financial reporting.

On April 7, 2015, the FASB issued ASU No. 2015-03, *Interest-Imputation of Interest*, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. The new standard becomes effective for the Partnership on January 1, 2016. The Partnership is evaluating the effect that ASU 2015-03 will have on its consolidated financial statements and related disclosures. The Partnership does not believe that this standard will have a material impact on its ongoing financial reporting upon adoption.

## **Off-Balance Sheet Arrangements**

As of March 31, 2015, we did not have any off-balance sheet arrangements other than immaterial operating leases.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

The primary objective of the following information is to provide forward-looking quantitative and qualitative information about our potential exposure to market risk. The term “market risk” refers to the risk of loss arising from adverse changes in commodity prices and interest rates. The disclosures are not meant to be precise indicators of expected future losses, but rather indicators of reasonably possible losses. This forward-looking information provides indicators of how we view and manage our ongoing market risk exposures.

#### ***Commodity Price Risk***

Our gathering and compression agreement with Antero provides for fixed-fee structures, and we intend to continue to pursue additional fixed-fee opportunities with Antero and third parties in order to avoid direct commodity price exposure. However, to the extent that our future contractual arrangements with Antero or third parties do not provide for fixed-fee structures, we may become subject to commodity price risk. We are subject to commodity price risks to the extent that they impact Antero’s development program and production and therefore our gathering volumes.

#### ***Interest Rate Risk***

Our primary exposure to interest rate risk results from outstanding borrowings under our revolving credit facility, which has a floating interest rate. We do not currently, but may in the future, hedge the interest on portions of our borrowings under our revolving credit facility from time-to-time in order to manage risks associated with floating interest rates. At March 31, 2015, we had no borrowings and no letters of credit outstanding under the revolving credit facility.

#### ***Credit Risk***

We are dependent on Antero as our only customer, and we expect to derive a substantial majority of our revenues from Antero for the foreseeable future. As a result, any event, whether in our area of operations or otherwise, that adversely affects Antero’s production, drilling schedule, financial condition, leverage, market reputation, liquidity, results of operations or cash flows may adversely affect our revenues and cash available for distribution.

Further, we are subject to the risk of non-payment or non-performance by Antero, including with respect to our gathering and compression agreement. We cannot predict the extent to which Antero’s business would be impacted if conditions in the energy industry were to deteriorate further, nor can we estimate the impact such conditions would have on Antero’s ability to execute its

drilling and development program or to perform under our agreement. Any material non-payment or non-performance by Antero could reduce our ability to make distributions to our unitholders.

**Item 4. Controls and Procedures.**

***Evaluation of Disclosure Controls and Procedures***

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), we have evaluated, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this quarterly report on Form 10-Q. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based upon that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of March 31, 2015 at the reasonable assurance level.

***Changes in Internal Control Over Financial Reporting***

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three months ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II—OTHER INFORMATION

### Item 1. Legal Proceedings.

Our operations are subject to a variety of risks and disputes normally incident to our business. As a result, we may, at any given time, be a defendant in various legal proceedings and litigation arising in the ordinary course of business. However, we are not currently subject to any material litigation.

We maintain insurance policies with insurers in amounts and with coverage and deductibles that we, with the advice of our insurance advisors and brokers, believe are reasonable and prudent. We cannot, however, provide any assurance that this insurance will be adequate to protect us from all material expenses related to potential future claims for personal and property damage or that these levels of insurance will be available in the future at economical prices.

### Item 1A. Risk Factors.

We are subject to certain risks and hazards due to the nature of the business activities we conduct. For a discussion of these risks, see “Item 1A. Risk Factors” in our 2014 Form 10-K. The risks described in our 2014 Form 10-K could materially and adversely affect our business, financial condition, cash flows, and results of operations. There have been no material changes to the risks described in our 2014 Form 10-K. We may experience additional risks and uncertainties not currently known to us; or, as a result of developments occurring in the future, conditions that we currently deem to be immaterial may also materially and adversely affect our business, financial condition, cash flows and results of operations.

### Item 5. Other Information.

#### *Disclosure pursuant to Section 13(r) of the Securities Exchange Act of 1934*

Pursuant to Section 13(r) of the Securities Exchange Act of 1934, we, Antero Midstream Partners LP, may be required to disclose in our annual and quarterly reports to the SEC, whether we or any of our “affiliates” knowingly engaged in certain activities, transactions or dealings relating to Iran or with certain individuals or entities targeted by US economic sanctions. Disclosure is generally required even where the activities, transactions or dealings were conducted in compliance with applicable law. Because the SEC defines the term “affiliate” broadly, it includes any entity under common “control” with us (and the term “control” is also construed broadly by the SEC).

The description of the activities below has been provided to us by Warburg Pincus LLC (“WP”), affiliates of which: (i) beneficially own more than 10% of our outstanding common units and/or are members of our general partner’s board of directors and (ii) beneficially own more than 10% of the equity interests of, and have the right to designate members of the board of directors of Santander Asset Management Investment Holdings Limited (“SAMIH”). SAMIH may therefore be deemed to be under common “control” with us; however, this statement is not meant to be an admission that common control exists.

The disclosure below relates solely to activities conducted by SAMIH and its non-U.S. affiliates that may be deemed to be under common “control” with us. The disclosure does not relate to any activities conducted by us or by WP and does not involve our or WP’s management. Neither we nor WP has had any involvement in or control over the disclosed activities of SAMIH, and neither we nor WP has independently verified or participated in the preparation of the disclosures. Neither we nor WP is representing to the accuracy or completeness of the disclosures nor do we or WP undertake any obligation to correct or update them.

We understand that SAMIH’s affiliates intend to disclose in their next annual or quarterly SEC report that “Santander UK holds frozen savings and current accounts for two customers resident in the U.K. who are currently designated by the U.S. for terrorism. The accounts held by each customer were blocked after the customer’s designation and remained blocked and dormant throughout the first quarter of 2015. No revenue has been generated by Santander UK on these accounts.”

“An Iranian national, resident in the U.K., who is currently designated by the U.S. under the Iranian Financial Sanctions Regulations and the Weapons of Mass Destruction Proliferators Sanctions Regulations (“NPWMD sanctions program”), holds a mortgage with Santander UK that was issued prior to any such designation. No further drawdown has been made (or would be permitted) under this mortgage although Santander UK continues to receive repayment installments. In the first quarter of 2015, total

revenue in connection with the mortgage was approximately £800 and net profits were negligible relative to the overall profits of Santander UK. Santander UK does not intend to enter into any new relationships with this customer, and any disbursements will only be made in accordance with applicable sanctions. The same Iranian national also holds two investment accounts with Santander Asset Management UK Limited. The accounts have remained frozen during quarter one of 2015. The investment returns are being automatically reinvested, and no disbursements have been made to the customer. Total revenue for the Santander Group in connection with the investment accounts was approximately £70 and net profits in the first quarter of 2015 were negligible relative to the overall profits of Banco Santander, S.A.”

**Item 6. Exhibits.**

The exhibits required to be filed pursuant to the requirements of Item 601 of Regulation S-K are set forth in the Exhibit Index accompanying this Form 10-Q and are incorporated herein by reference.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

The exhibits marked with the asterisk symbol (\*) are filed or furnished with this Quarterly Report on Form 10-Q.

**CERTIFICATION PURSUANT TO  
RULE 13A-14(A) AND RULE 15D-14(A)  
OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED**

I, Paul M. Rady, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2015 of Antero Midstream Partners LP (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared; and
  - b. Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - c. Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting.
5. The registrant’s other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
